

Founded in 1990 and headquartered at Hsinchu Science Park, Taiwan R.O.C., Radiantech recognized leader in partnerships in the design and manufacturing Fiber Optic Test & Measurement solutions and Optical Communications over 20 years, targeting the telecommunications, internetworking, and enterprise market segments. Radiantech's products satisfy the ever-increasing bandwidth needs of enterprise and service providers' networks through innovative technology, improved system performance, reduced product size, lower total system cost, and faster time to market.

Quality Assurance The entire Radiantech organization is committed in making products that are not only technologically advanced, but also of the highest possible quality. To that end, we have adopted this, our ultimate goal. **Goal** Ensure customers' satisfaction through continuous improvement in the quality, reliability, and performance of our products.

To achieve this goal, we adhere to these Cornerstones of Quality:

Quality System

Radiantech is an TAF Certified company.

Operations

Technology, Quality, Responsiveness, Delivery, Cost.

Reliability

Acknowledged and Distinguished TAF Calibration Laboratory with traceable standards unto NIST-US, NPL-UK, NML-Taiwan and ITU standards.

Partnerships

We demand the highest level of quality and controls from all our suppliers and vendors.
